CRITERIA FOR A CERTIFICATE OF EXCELLENCE IN SCIENCE

1. Students must take four courses of science in high school. One must be an advanced course from the following list:
   - International Baccalaureate Chemistry
   - International Baccalaureate Environmental Systems and Society
   - AP Physics
   - AP Biology
   - AP Chemistry
   - Honors Physics
   - Honors Biology
   - Honors Chemistry
   - Bioscience 2

2. Students must earn a minimum of seven A's for the eight semesters

3. Students who are graduating early or who have more than one of the advanced courses, may petition the science department if they do not meet the requirements.

If a student wishes to apply for the Certificate of Excellence in science, they must complete the google form on the counseling website and <u>print and complete</u> this application.
For your current science course, include your 3rd quarter grade. Return the completed form to your current science teacher.
