

Thank you for choosing Verizon Wireless!

Please note the following:

All corporate employee discounts, add a line, upgrades and account management can be easily accessed through your My Verizon account online @

<http://www.verizonwireless.com/b2c/index.html?tab=myaccount>

If you would like to register for your company discount, you can register online at www.verizonwireless.com/discounts. On the first page enter your billing zip code, then enter your work email address twice under the header "you may be eligible". Verizon will send a confirmation email to your work email address. ***On the confirmation email click "get started", it will re-direct you to another webpage, scroll down and click on the "Enroll Now" button. Fill in all your account information. The discount can take up to 2 billing cycles to post to your account.

***If you do not have a work email address go to www.verizonwireless.com/discounts and click the link on the right hand side under "Don't have a work email address?" and enter your employer and personal information. You will then need to fax a copy of your pay stub and employee ID to the fax number generated by the website.

If you are an existing customer and would like to add a line or upgrade to a new device. Please log on to your My Verizon account online at www.verizonwireless.com. All applicable discounts will apply to your purchase online, including instant rebates.

If you are a new customer wanting to set up service and have your corporate discount applied. Go to www.verizonwireless.com/discounts. Put in your work email address. When you get the confirmation email back from Verizon - click on "Get Started". You will be directed to the "Offers & Promotions" page. On the left side of the page is a section for "New Customers" - you can start shopping for phones and plans. This will put your discount in place.

If you have questions about your account status, billing issues, rate plans or any other account issues, please call our customer service center.

Thank you for choosing Verizon Wireless.
