She reviewed the timeline of the meet and confer committee, thanked all members that participated and talked about the proposed recommendations.

The meet and confer committee recommends that the Governing Board approve the following revisions for employees:

1. To help offset the impact of inflation and health insurance increases, the District will increase its annual contribution for medical benefits by \$157.20 per participating employee.
2. Increase base pay by 2% for eligible employees, and if the state budget increase for salaries exceeds that 2%, then the additional funding above 2% will also be passed through to eligible employees as an equal percentage increase.
3. In the event that the District receives new and undesignated funding in the current year that can be used for salaries, the meet and confer committee recommends that the

Governing Board prioritize using those funds in the following ways:

- a. First, to address wage compression.
- b. Second, to address increasing addendums as appropriate.

In addition, the meet and confer committee recommends that the Superintendent reconvene the addendum committee to review the addendum schedule and make appropriate recommendations.

She then shared the results of the joint survey that was sent to employees. The survey had 530 employees respond and 92% agreed with the recommendation. Ms. Tong said there were 95 comments and the most common comments were:

1. Concerns that a 2% increase is insufficient to combat current cost of living increases.
2. Worries that the increased contribution toward benefits will be too small to make a difference.
3. Appreciation that addendums will be reviewed.

Ms. Tong concluded by advising that the Governing Board approve the following Recommendations of the Meet and Confer Committee:

1. Approval will permit qualified returning employees to receive a total percentage increase to base pay equal to the total percentage increase to base support level that the state ultimately approves for public school districts for FY 2023-2024.
2. Approval will increase the District contribution for employee benefits to equal \$400 per month for a total contribution of \$4,800 per enrolled employee per year.
3. Approval will set priorities for use of additional funds that become available for compensation to be used to prioritize addressing compression and then addendum pay as permitted.

President Day thanked the teams for completing the compensation process quickly and for recommending a package that meets the needs of staff.
